EXPERIENCE

Wojo Design, Chicago — *Front End Developer*

OCT 2016 - PRESENT

Full Remote, Front End Developer. Currently handling additional Full Stack Development duties from setting up hosting droplets to deploying CMS frameworks for clients. Mobile App development/deployment management with both Apple and Google App Stores.

Advantage Services, Florida — *Sr. Web Developer*

MAY 2009 - AUG 2016

In-office. Full-Stack web development. Focus on ColdFusion and vanilla Javascript. Major experience with Mobile PWA's for trade show demos for various interactive exhibitions. Ran face to face meetings with clients to address needs, concerns, questions, etc.

EDUCATION

Full Sail University, Orlando, FL — *Bachelor of Arts Digital Arts and Design*

2005 - 2008 (Graduated)

PROJECTS

Iron Galaxy Studios — <https://irongalaxystudios.com/>

Worked primarily with Craft CMS, twig, alpinejs to translate the design team's work for end users. Implemented automatic propagation of client's hiring vendor API data into the backend so that new jobs are added to the website automatically.

Eyedictive — <https://eyedictive.com/>

eCommerce solution for major SunGlasses distributor. Handles around 1 million purchases a year. WooCommerce with sage/bedrock WordPress boilerplate.
